

VOTE IN MILWAUKEE WAS A SURPRISE

POPULIST PARTY SHOWED UN- EXPECTED STRENGTH.

Republicans Carried Everything, But the Head of the Ticket Came Near Being Defeated—Chicago Gang Cleaned Out by the Friends of Good Government.

Milwaukee, Wis., April 8.—A large stay-at-home element, coupled with a remarkably large populist vote, came very near defeating the republican ticket in this city. At 11 o'clock last night sixty-five out of 124 precincts gave Rauschenberger (rep.), 8,933; Maxon (dem.), 7,345, and Smith (pop.), 4,061. Two strongly democratic wards have not been heard from, but the returns are pretty well scattered. They indicate the election of Rauschenberger by a plurality ranging from 1,500 to 3,000 votes. This carries with it the other nominees on the city ticket. The democrats have gained several members of the common council, but the republicans will still control that body by a safe majority. On the board of supervisors the democrats have also made gains, and may have a majority. The election was notable for the number of split ballots cast.

The populist vote is a great surprise, being much larger than was anticipated. The municipal reform and good government agitation appears to have helped the populists more than the other two parties, although the good-government leaders were all democrats or republicans.

Madison, Wis., April 8.—Dr. A. A. Dye (rep.) was elected mayor by a plurality of fifty over J. D. Alford (dem.). The common council will stand seven democrats and five republicans, a gain of one for republicans.

Kenosha, Wis., April 8.—As near as now can be determined, Dr. Farr's majority for mayor is about 127.

Eau Claire, Wis., April 8.—Dr. D. W. Day (dem.), is elected mayor by a majority estimated at 100. B. S. Phillips (dem.) is elected treasurer. Democrats elect nine aldermen, republicans three, democrats gaining four.

IN MISSOURI

Kansas City Elections Pass Off Quietly—Results Throughout the State.

Kansas City, Mo., April 8.—After a campaign filled with unusually severe recriminations and strife and in which parties were split from center to circumference, the city election Tuesday passed off as peacefully as a May party. Twenty out of 83 precincts give the Republican ticket, headed by Jones, a majority of 500 over Kumpf (Ind. Dem.).

Sedalia, Mo., April 8.—The most exciting election in the history of Sedalia occurred Tuesday, resulting in the election of the entire Republican ticket, except two aldermen.

Linneus, Mo., April 8.—At the city election Tuesday H. C. Prewitt was elected mayor on the Democratic ticket. The Republicans got one alderman.

St. Joseph, Mo., April 8.—The election of L. A. Vories (Dem.) over W. M. Shepherd, the present incumbent, for mayor, is conceded by a majority of about 500. The indications point to the election of mayor, collector, police judge and six out of the eight aldermen by the Democrats.

St. Louis, Mo., April 8.—Elections were held Tuesday in many municipalities throughout Missouri, but returns had not been received from all at 11 p. m. Party lines were not closely drawn, but in a majority of cities where such was the case the Democrats elected the whole or the greater part of their tickets. Local issues were at stake in still other cities and party lines were obliterated. According to incomplete returns received the Democrats carried Cuba, Bismarck, Marshfield, Higginsville, Monroe City and Nevada. The result was mixed at Wellesville, Golden City and Clinton.

Republicans Win in Chicago.

Chicago, April 8.—Republicans swept the local political chess board Tuesday, electing their entire town ticket in the towns of Chicago, Evanston, Lake View, Jefferson, Cicero, Lake and Hyde Park, and twenty-four of the thirty-six aldermen voted for in the city wards.

Town elections were held throughout Illinois Monday. As a general thing, republican victories are reported. At Monmouth, a surprise was caused by the election of William Ellenburger, a college student, over his republican opponent. Republican gains are reported in Danville, Charleston, Sigel, Mattoon, Champaign, Urbana, Lacon, Vandalia and Princeton. In Salem the entire democratic ticket was elected, where the republicans were successful a year ago. At Mount Sterling a free-silver ticket was in the field. No license carried at Yates City. A municipal election was held in Quincy. The democrats elected five aldermen and the republicans three.

Results in Minnesota.

St. Paul, Minn., April 8.—In the Minnesota municipal elections Tuesday there was a sort of drawn battle. At Fairbault P. F. Ruge (Dem.) defeated F. W. Winter (Rep.) by 216 votes. The Democrats also secured a majority in the common council for the first time in many years. At East Grand Forks

Thomas McAdam was elected mayor by a majority of 37. At Ada J. M. Hentze (Pop.) was elected mayor by 20 votes. The town went to license by seven majority. John R. McKinnon, citizens' candidate, was defeated by 250 by M. R. Brown (Rep.) at Crookston; the last named is the Republican presidential elector for the Seventh district. Otto Kauph (Rep.) was elected mayor of Blue Earth City, and license carried by 112 majority. The prohibition mayor at Tracy was knocked out by W. F. Parker (Rep.) and license carried by 90 votes.

UTAH STATE REPUBLICANS.

National Delegates Elected and a Free-Silver Platform Adopted.
Salt Lake, Utah, April 8.—The republican state convention elected Frank J. Cannon, Arthur Brown, C. E. Allen, Isaac Trumbo, W. R. McCormick and Thomas Kearnes as delegates to the St. Louis convention.

The platform is confined almost entirely to protection and bimetalism, and the sense of the convention is expressed in the following language: "We believe in a protective tariff; we believe in reciprocity; we believe in bimetalism, which is the full recognition alike of gold and silver, and their free coinage in the mints of the nation at the ratio of 16 to 1. The situation makes clear that bimetalism and protection must be accepted as constituting one vital, indivisible principle that not only the progress but the safety of the industries of our country and the toilers who carry on those industries make the acceptance of this principle imperative—protection by a tariff to equalize the wages of our country and those paid abroad, and bimetalism to take from gold its present application, and to equalize the money of this country and that of silver-standard nations."

IN INDIANA.

Lively Contest at Crawfordsville Decided in Favor of Landis.

Crawfordsville, Ind., April 8.—The Republican congressional convention of the Ninth district was held in Crawfordsville Tuesday and was of a most exciting character. C. B. Landis, editor of the Delphi Journal, was the leading candidate, and received 119 votes on the first ballot, needing only 111 to secure the nomination. The excitement was intense as the balloting proceeded, but the convention was harmonious and the nomination was made unanimous on motion of the defeated candidates.

Fort Wayne, Ind., April 8.—The Democrats of the Twelfth congressional district unanimously nominated James M. Robinson for congress. Mr. Robinson is a free-silver man, although he has not publicly pledged himself.

South Carolina State Convention.

Columbia, S. C., April 8.—The state convention of the Webster wing of the republican party was held in Columbia Tuesday. The platform comes out strongly for protection. On the financial question it says:

"We stand with our party in the reiteration of its demand for both gold and silver as standard money. We believe that legislation should secure and maintain the parity of values of the two metals to the end that the purchasing and debt-paying power of the American dollar, silver, gold and paper, shall be the same any and everywhere. We believe that bimetalism alone can secure this result."

Silver Sentiment in Missouri.

Lebanon, Mo., April 8.—Forty-six counties have elected delegates to the democratic state convention to be held at Sedalia April 15, for the election of delegates to the national convention. Every county so far has elected solid silver delegations and declared in positive and emphatic terms for the free coinage of silver at the ratio of 16 to 1. More than two-thirds of the counties that have elected delegates have instructed for a solid delegation of uncompromising silver men to the Chicago convention, and instructed for Bland, Stone, Vest and Cockrell for delegates-at-large.

McKinley and Evans Indorsed.

Nashville, Tenn., April 8.—Republican conventions to select delegates to state and congressional district conventions were held in Carroll, Coffee, Gibson, Sumner, Henderson, Weakly, Gibson, Sumner, Henderson, Weakly, Campbell, Sullivan, Blount, Sevier, Coke, Monroe, Anderson, Carter, Greene and Washington counties. All indorsed McKinley and selected McKinley delegates to state and district conventions. H. C. Evans was indorsed by some for governor and by nearly all the conventions for delegate from the state at large.

McKinley Victory in Maryland.

Baltimore, Md., April 8.—The Somerset county republican convention instructed its delegates for McKinley. The Anne Arundel county convention at Annapolis also adopted resolutions favorable to McKinley. The Allegany county republican convention adopted resolutions praising in the highest terms McKinley and declaring that while the republicans of Allegany recognized the eminent fitness of the great Ohio statesman for the presidency, they would support the nominee, whoever might be named.

To Strengthen Spain's Navy.

Madrid, April 8.—Admiral Berenger, the minister of marine, will propose to the cabinet an extra credit of 23,900,000 pesetas on account of naval construction.

UNCLE SAM CALLS TURKEY TO TERMS.

Turkish Government Imprison a Missionary—Rev. George C. Knapp, an American, Unjustly Detained at Bitlis—Selfridge May Make a Naval Demonstration.

Constantinople, April 8 (via Sofia, Bulgaria, April 7).—Advices received here from Diarbekir indicate beyond any reasonable doubt that the Rev. George C. Knapp, one of the American missionaries at Bitlis, is confined in the jail at Diarbekir, capital of the Vilayet of that name, in Turkish Armenia, and that serious international complications are likely to follow. The Turkish government replying to the representations of the United States charge d'affaires, Mr. John W. Riddle, has announced through the grand vizier and through the minister for foreign affairs that no news has been received by the porte regarding the reported expulsion of the Rev. Mr. Knapp from Bitlis, and it was intimated that if it were true he had arrived at Diarbekir it would appear that the local authorities were desirous of secretly expelling the American missionary.

But the latest news from Diarbekir shows that this cannot possibly be the case, as it is further announced that the Rev. Mr. Knapp is to be sent from Diarbekir to Alexandretta, a seaport on the Bay of Iskanderun, opening into the eastern portion of the Mediterranean, there either to be shipped out of the country or delivered to the representatives of the United States. It is now said that the United States squadron in the Mediterranean, consisting of the flagship Minneapolis, commanded by Admiral T. O. Selfridge, and the cruiser Marblehead will shortly assemble in the gulf of Iskanderun; and at the same time a formal protest against the treatment of the American missionaries may be made to the porte, coupled with the demand for an adequate indemnity for the damage recently done to the property of Americans.

The imprisonment and proposed expulsion from the Turkish dominions of the Rev. Mr. Knapp is, however, understood to be but a preliminary to the expulsion of all the Christian missionaries, mostly Americans, English and French Catholics, from Asiatic Turkey and possibly from European Turkey as well. Besides it is rumored that the agents of the American Red Cross society, now distributing relief funds in Asiatic Turkey in the presence of local Turkish officials, are also to be expelled from that part of the empire. It is believed here only that prompt and energetic action will prevent the issuing of the imperial irade providing for the expulsion of the missionaries and Red Cross society agents.

FEELING AT WASHINGTON.

Officials of the State Department Do Not Expect Serious Trouble.

Washington, April 8.—The officials at the state department are fully aware of the condition of the missionaries in Turkey and of the developments in the case of Missionary Knapp, who is reported by cable to be in confinement at Diarbekir, but they refuse to discuss the matter in any phase. However, it is apparent that they do not feel under any great degree of apprehension as to serious trouble in Turkey. It is quite certain that no orders have gone forward to Admiral Selfridge to gather his fleet in the Gulf of Iskanderun to make any sort of demonstration, and, although he has a large measure of discretion and authority in the movements of his ship, it is unlikely he would go so far as to make a naval demonstration without the sanction and direction of the navy department.

So far as the case of Missionary Knapp is concerned it presents no feature of novelty, and the only point involved on its face is the old question of extra-territorial jurisdiction by our legation in Turkey. The state department has insisted upon the exercise of this right steadfastly.

The more serious aspect of the matter is brought to light by the renewal of the report that emanated from Constantinople some weeks ago, to the effect that there is to be a general expulsion of all foreign missionaries from Turkish Armenia, and notwithstanding the reticence shown at the state department in reference to this subject it is believed there is some foundation for the report.

Dominion House in Long Session.

Ottawa, Ont., April 8.—The house of commons has been sitting continuously since 3 o'clock Monday afternoon in discussing the Manitoba school remedial bill. No progress was made. It is thought that the house will continue to sit, without adjournment, until midnight on Saturday night. Some rather boisterous scenes occurred in the bar of the restaurant during the present and previous recent prolonged sittings of the house. The matter was brought up by Sir Richard Cartwright, who characterized the scenes as disgraceful and declared that the bar should be abolished.

Temperance Wins in Kansas.

Topeka, Kan., April 8.—Returns from cities of the second class, where there was any opposition to the republican ticket, show republican victories

SPECIAL MESSAGE ON THE CUBAN CASE

QUESTION MAY BE THUS DEALT WITH.

Expectation That the President Will Communicate to Congress His Views as to the Recognition of the Insurgents—Postoffice Appropriation Passed.

Washington, April 8.—The senate concurrent resolutions on the Cuban question were delivered to Private Secretary Thurber Tuesday by Mr. Platt, one of the executive clerks of the senate. Later in the day they were sent to the state department, as the law requires that such resolutions shall be printed in the book of laws annually published by the department.

Secretary Olney called early at the White House and remained in close consultation with the president, undisturbed by the notice that had been sent to the other members to the effect that there would be no cabinet meeting. There was a story current, and it is believed well founded, to the effect that the two were engaged in the preparation of a special message to congress. Of course this was immediately assumed to relate to the Cuban situation and to be an exposition by the president of the actual state of affairs on the island, as revealed in the reports of the United States consular officers and other trusted sources of information. There is a resolution before the president, passed at the instance of Senator Hoar of Massachusetts, calling for this information.

It is reasoned that the president may feel it his duty, in view of the overwhelming majority by which the Cuban concurrent resolutions passed both branches of congress, to come out with a plain statement of the reasons that influence him in preserving unmoved the position he has assumed toward the insurrection in Cuba, showing from the best obtainable information that has reached him that regardless of the sympathy he may feel personally for the insurgents he is absolutely bound by the facts as he sees them by precedent, and by the dictates of international law to persist in his attitude. This view of the matter of course applies only so long as the president is left free to decide upon the course to be followed by the government, since it may be that he would take an entirely different view of the matter if congress should send to him a joint resolution embodying the features of these concurrent resolutions, and assumed that by so doing the legislative branch had taken the direction of the matter out of his hands.

POSTOFFICE APPROPRIATION BILL.

Spirited Debate Continued on the Question of Consolidation.

Washington, April 8.—The postoffice appropriation bill, which has engrossed the senate for almost a week, was passed by that body just previous to adjournment Tuesday. The entire day, with the exception of a few minutes at the beginning of the session, was devoted to debate and voting upon the amendments proposed to the bill, the Wolcott amendment for the consolidation of smaller offices with larger ones receiving the greater share of attention. The discussion on this proposition again took the form of a debate upon the merits of civil-service reform, and was participated in by Messrs. Vilas, Wolcott, Allen, Hill, Hoar, Gorman, Stewart and others. There were some rather spirited dialogues between Messrs. Vilas and Allen and between Messrs. Wolcott and Hill. Mr. Wolcott criticized Secretary Smith for his participation in the Georgia campaign, and was replied to by Mr. Hill. The amendment was defeated by a decisive vote, receiving only seven votes in its support.

Proceedings in the House.

Washington, April 8.—The house spent Tuesday debating a bill to fix the standard of weights and measures by the adoption of the metric system on and after July 1, 1898, and a proposition that the government share with the District of Columbia the expense of creating and maintaining a public library in the city of Washington. The latter was defeated—113 to 127—and the fate of the metric system bill still hangs in the balance. On a rising vote it was defeated—65 to 80—by C. W. Stone of Pennsylvania, chairman of the committee on coinage, weights and measures, who has given the subject much attention and who warmly supported it, secured the yeas and nays, and pending the roll call the house adjourned.

Would Limit Veto Power.

Washington, April 8.—In the senate Tuesday Mr. Butler (pop.) of North Carolina introduced a joint resolution providing for an amendment of the constitution to limit the veto power of the president so as to make it competent for the two houses to pass bills over a veto by a majority vote. Speaking of the resolution, he said the idea of requiring a two-thirds vote was due to the fact that when the constitution was adopted the American people were not far removed from English ideas. In his opinion the power vested in the president was too great and should be limited.

Information of Mrs. Maybrick.

Washington, April 8.—A resolution was introduced in the house Tuesday

by Representative Underwood of Alabama calling on the secretary of state for information in regard to Mrs. Maybrick, who is imprisoned in England on a charge of poisoning. Mrs. Maybrick was formerly a resident of Mobile, Ala.

Woodard Holds His Seat.

Washington, April 8.—Elections committee No. 1 by a unanimous vote decided contested election case of H. P. Cheatham vs. Fred A. Woodard, from the Second North Carolina district, in favor of Mr. Woodard, the sitting member. Cheatham is a colored republican and has represented his district in the house.

Honor for Gen. Miles.

Washington, April 8.—The house committee on military affairs decided to report favorably to the house the resolution to bestow the rank of lieutenant-general on Gen. Nelson A. Miles. The vote was 8 to 4 in favor of the resolution.

Cabinet Meeting Postponed.

Washington, April 8.—The meeting of the cabinet Tuesday was postponed without date, owing to the sudden appearance of the measles in the president's household, little Esther Cleveland being stricken with it.

HOKE SMITH AND MR. CRISP.

Third of the Joint Financial Discussions Held in Georgia.

Newnan, Ga., April 8.—The third of the joint financial discussions between Secretary Hoke Smith and ex-Speaker Crisp was listened to here Tuesday by an audience of about 4,000, chiefly farmers from the surrounding country. Both the speakers are suffering from throat trouble and have been forbidden by the specialists who are treating them from speaking on successive days. In consequence the debate set for tomorrow has been declared off, and the two financial champions will meet next in Albany on Friday.

Ex-Speaker Crisp replied to the charge that he had not always been for silver. He said that when he was elected speaker he was bitterly opposed by the east on account of his financial views. His vote prevented, he said, the tabling of a free-coinage bill. In the last congress, he said, he appointed a silver committee, and one member changed his views. He was not responsible for that. Men often changed their views.

The secretary of the interior was cheered on being introduced. "Judge Crisp," he said in the outset, "has sought to create the impression that I am opposed to the use of both gold and silver. I am in favor of that system which will give us the largest use of both. I deny that unlimited silver coinage will give us bimetalism."

Gen. and Mrs. Harrison Welcomed.

Indianapolis, Ind., April 8.—The Pennsylvania train bearing General Harrison and his bride arrived here on time at 10:15 o'clock Tuesday night. A large crowd welcomed the party. No special demonstration was made at the station, and the bridal party, consisting of the bride and groom, Secretary Tibbitts, Colonel Dan Ransdell, and Mrs. Harrison's maid made their way to the waiting carriages, and were driven to their respective homes. Secretary Tibbitts said that the question of another political contest for the presidency was not mentioned on the route home, and that it was the intention of the ex-president to lead a quiet life in Indianapolis, and to give his entire attention to his law practice.

Eight-Hour Day Movement.

Cleveland, Ohio, April 8.—It is said that 5,000 men belonging to the building trades unions in this city will demand the eight-hour day before May 1. The carpenters' union has sent out letters to all contractors asking their cooperation in the movement. Several contractors have consented to grant the eight-hour day provided the demand is not made for more pay. The men will not demand any increase of wages, believing that better pay will follow.

Money for Use of Missionaries.

Wabash, Ind., April 8.—At the Indiana Evangelical conference at Urbana \$1,413 was raised for missionary purposes, making the total \$4,051. The Rev. J. Haug was chosen vice president of the conference and H. L. Schuller, editor and publisher of the Conference Journal, and S. Griest conference treasurer. W. Mertz was elected treasurer of the Syracuse Campmeeting Association.

Commander Booth at Chicago.

Chicago, April 8.—Commander and Mrs. Ballington Booth were welcomed at the Auditorium last night by an immense audience, and the Volunteers' movement took form in the west. Commander Booth commissioned ex-Brigadier Edward Fielding colonel of the Volunteers, in command of the Northwestern division. This territory includes Illinois, Wisconsin, Indiana, and southern Michigan.

Want Linton for President.

St. Louis, Mo., April 8.—The American Protective association has sprung a decided surprise in political circles by taking up William S. Linton, of Michigan, as its choice for president, and arranging for a vigorous campaign. Mr. Linton is expected here soon, when his boom will be formally launched at a demonstration to be held at the Exposition building.

VAULT IS WRECKED BY BOLD ROBBERS

STILLMAN VALLEY, ILL., BANK RAIDED.

Village the Scene of a Daring But Unsuccessful Job—A Clue in the Bastian Murder Mystery at Rock Island—Want To Lynch Rider in Kentucky.

Rockford, Ill., April 8.—The bank at Stillman Valley, southeast of this city, was broken into Monday by unknown parties, who made an attempt to blow open the safe, but failed to get inside, where there was a large sum of money. They succeeded in completely wrecking the vault as well as one corner of the bank building. There is no clew.

More of the Bastian Mystery.

Rock Island, Ill., April 8.—The silver watch found at the Bastian farm has been identified as Fritz Kreinzen's, so that both watches which were unearthed a few days ago have been identified now. Parts of a trunk were found yesterday in an old well, and it was also discovered that a seventh man is to be accounted for.

Try to Lynch Dr. W. L. Ryder.

Talbotton, Ga., April 8.—Dr. W. L. Ryder, who assassinated Miss Sallie Emma Owens Sunday night, was removed to Columbus Tuesday. The guard around the jail is still on duty there. Sixty mounted men came to lynch Ryder, but cool heads appeased the party. At a mass meeting Judge Bobb was requested to call a grand jury immediately in the Superior court.

TRIAL IS POSTPONED.

Scott Jackson Given a Respite Until Tuesday, April 21.

Newport, Ky., April 8.—Scott Jackson, the alleged murderer of Pearl Bryan, was before Judge Helm on Tuesday for trial. Upon the application of his attorneys the judge postponed the hearing until Tuesday, April 21.

The courtroom was crowded, but the best of order prevailed. As Jackson was leaving the courtroom he passed in front of a woman sitting in the front row of seats. He looked down at her smilingly, when the woman suddenly delivered a vicious kick at the prisoner, and as he passed beyond her she was heard to say: "I would have killed him if I could. If I had had a pistol I would have shot him." She refused to give her name and the incident was not widely observed, thus possibly preventing more serious consequences.

LONDON PRESS COMMENT.

United States May Have to Fight with Spain.

London, April 8.—The Globe, commenting upon the Cuban belligerency vote in the United States house of representatives, says: "The chief danger of the situation is that Spanish pride will never surrender Spain's most valuable colony until beaten to the ground and should there be a repetition of the popular demonstrations against the United States, American passion might flame up in an ugly manner and compel President Cleveland to demand satisfaction. This would almost inevitably result in war, and while the United States would, of course, crush Spain, American trade, already very delicate, would be largely wrecked." In conclusion, the Globe expresses the opinion that it is improbable that President Cleveland will seriously consider the concurrent resolutions.

Illinois Prohibition Convention.

Springfield, Ill., April 8.—The delegates to the state convention of the prohibition party are here in large numbers. There are fully 500 of them on hand. There is likely to be a lively fight over the platform, as the people's party and free-silver men want their ideas incorporated into the platform, but it is believed that a straight prohibition platform, with no other planks, will be adopted. The state central committee met last night and decided upon Oliver W. Stewart, of Macinaw, as chairman, and Alonzo E. Wilson, of Chicago, as secretary.

Big Fortune at Stake.

Pittsburg, Pa., April 8.—The suit in equity instituted several months ago by R. S. Waring against George Westinghouse, Jr., to recover the value of 10,000 shares of stock in the Standard Underground Cable company is on trial in the county courts before Judge White. Over \$500,000 is involved.

Colorado Coal Miners' Strike.

Denver, Colo., April 8.—About 500 miners in the employ of the United Coal company at the mines in Louisville, Lafayette, Erie, and Marshall, Colo., have struck for an increase of about 15 per cent in wages, which had been refused by Austin G. Gorham, receiver of the company.

Heavy Vote in Nebraska.

Omaha, Neb., April 8.—Nebraska municipal elections took place Tuesday. A heavy vote was polled even in the face of heavy rains. A general disposition was manifested to disregard party lines. The issue was high license, and in a majority of cases was carried.

MARION V. DUDLEY IN A COUNTY MAD-HOUSE.

A Former Janesville Writer Tells Her Nine Months' Experience in the Wauwatosa Insane Asylum--Barbarism Still Endured By Helpless Patients--Sickening Food and Repulsive Beds--Harsh Rules That Retard Recovery--A. O. Wright Called to Account.

St. Augustine, Fla., Editor Gazette.—I beg you allow me the space in which to reply to the report of A. O. Wright in regard to Wisconsin's county insane asylum. Although what I shall say may not be in accordance with popular sentiment, still I think that my nine long months experience in that institution at Wauwatosa gave me considerable knowledge of the workings there, and as I was pronounced "perfectly sane" by seven of the best experts in insanity in this country in Philadelphia, New York City and Boston, soon after leaving there, it seems to me that I am entitled to be heard on the subject, quite as much as I should be had I never known anything of them except by an occasional visit on visitors day, when everything prepared for company in those wards opened to the throng of people having an outing day and who go to an asylum as a convenient terminus of their trolley ride. And just here I wish to say that such visiting does no good at all, as the visitor learns nothing and the patients are distressed by being stared at and often thrown into nervous exhaustion or "violence" by it. No class of people are so sensitive as the insane usually are and the disregard of that fact by asylum management is one of its worst features.

She Calls It Whitewashing. Mr. Wright's report is a whitewashing of those institutions, which a close inspection by experts, or indeed by candid non-experts of intelligence would not justify. No outsider can possibly know the interior arrangement of those places as an inmate knows it, and the time long since passed when cultivated people refused to listen to the statements of patients themselves, for usually they are capable of saying more truth, intelligently than any one else. A mind even considerably excited is not a fool; indeed, a fool is never insane. Thirty years ago, my father, James W. Churchill, was superintendent of the farm at the Madison hospital and I have ever had a horror of such institutions from his reports of the workings there. The horrors of those places are real, but not belonging to the patients, only to the treatment they receive, either through ignorance of proper methods of handling insanity or through brutality, and generally through both, for few men are saintly enough to trust with absolute authority over condemned people. The tyrant still sleeps in the genus homo too comfortably to admit of giving him power without great safeguards over the helpless. Scoldom are the best doctors at the head of such institutions. Only third-rate men are willing to sacrifice a freer career in the wards of insanity. There are a few notable exceptions, but usually young doctors try their novice hands at it, or some M. D. who has never had any special qualifications for the post takes it because he is a stupid failure in general practice.

Memories of the Madison Farm. At the time my father was in Madison, having daily charge of a hundred or more men, more or less insane, the shower-bath was in vogue there as a punishment for misdemeanors of insane people. Think of punishing an insane mind, unconscious of its own acts, or as irresponsible for its thoughts or deeds as a lame arm is for failure to act obediently to the will. Various other cruelties were then inflicted upon patients in that asylum and my father often said that many were held there who were undoubtedly sane, for the work they did gratuitously or the pay the institution received for their care, and that the least rebellion on their part, against such legalized imprisonment and slavery, was met with summary punishment—the cold shower-bath, prolonged solitary confinement in darkness for hours together, with bread and water as food; straight-jackets and manacles.

Such then was the humane surgery for the mind diseased, not only there but in insane asylums generally. Happily in most institutions the most barbaric of these methods have now been mitigated, but I have seen with mine own eyes enough to know whereof I speak, within the past four years and I am ready to assert that asylums in Wisconsin are not the models of propriety represented by Mr. Wright. In the first place he is not an expert physician in mental disorders. He is not

qualified to decide whether a large number of those 4,047 prisoners in your asylums are really insane or not. That they have been sent there by courts is no real ground for so assuming, judges are not experts in mental disease any more than are all doctors, and it is my experience that neither judges nor doctors conformed to the laws of Wisconsin in the farcical examination and equally farcical commitment of me to Wauwatosa; and I know also that there are people in that asylum, enduring the cross of lunacy, who are not so insane as are thousands who walk in freedom because the latter have no interested friends (?) desiring to control their property or jealous of their prestige in the world. Dr. Thor G. Morton, the great unchallenged expert in lunacy in Philadelphia says: "Even a dentist could testify to mental conditions in court, ten years ago, but now in Pennsylvania only the expert is allowed to do so." Until Wisconsin establishes a board of lunacy, with several conscientious, experienced physicians as its membership, who are specialists in lunacy, there is no guaranty that she is not confining the sane in her wards, or treating the insane improperly there.

Where the Inspection Failed. I have no ill will or any prejudice toward Mr. Wright. On the contrary, I should incline from earlier acquaintance, to give him a friendly word on any subject where he is competent to assert himself. But he is a theologian, an educated minister; he is not a physician and especially not an alienist or a neurologist, and while he can go from asylum to asylum, count the patients, walk through the wards prepared for his coming and take the doctor's statement of things, he cannot decide in any intelligent, authoritative manner whether a large number of the patients are insane or not. No one can do this but the expert alienist.

Had Mr. Wright lived in an asylum nine months and eaten the food of the patients' tables, he would without doubt, give a very different report of its quality, for I have seen, as the rule on the regular tables of patients, not comfortable food, such as the money appropriated to buy it ought to buy, but damaged bread made from wormy flour, week after week; no milk ever, no real tea or coffee, only slops as vile as are given to healthy pigs; never any butter, poor, dirty molasses, rancid meat, and everything corresponding, while in the same dining room, the healthy "attendant" ate from a separate table her food of far higher quality; as if the management, not content with starving the charity patients must needs also tantalize them by the sight of eatable food. I have seen some poor emaciated woman rise from the table with loathing for the prunes stewed in cockroaches and molasses and dash her plate upon the table, shivering it into atoms, only to be led away by the attendant and locked in her cell superfluous. Often I have heard an attendant express sorrow that she could not give those in her charge comfortable food like her own, for many of these girls working for their bread have hearts for the poor suffering creatures beneath them, and would alleviate their trials, had they the power. Mr. Wright is right in saying the "grade of attendants employed should be raised," but he is wrong in not also saying that the grade of physicians employed should be raised. The attendants, as a rule, are higher specimen of moral life than are the doctors.

Should Sleep In An Asylum. If Mr. Wright would stay awhile in the asylum and sleep in the beds there provided for the invalids, he might give a different report also in that respect, for of all vile abominations the beds in the public wards of an asylum are the worst, and mean as they are, no patient is allowed to lie upon one in the day time for fear of tumbling them. This most senseless rule has often been criticized by those outside, but still it has never been set aside in asylums, where a majority of the patients are tired-out people, overworked in mind and body, needing rest and food more than anything, but still never permitted to lie upon the bed in the day time. What would nervous and weary housekeepers outside think or do if they could never catch the afternoon nap or the half hour of rest from fatiguing labor because some law forbade lying on a bed in the day time? Why, physicians outside asylums, prescribe just this rest for nervous people; but inside it is a forbidden boon. Rules in an asylum are necessary, to a certain extent, but in Wisconsin they are greatly obsolete petrifications of ancient prison regulations, not made for the good of the patient, but enforced because customary in feudal institutions and no one has the courage to change. If the people would only visit asylums intelligently and insist upon knowing the real state of things, great good would result. The mystery enwrapping an asylum and an ordinary doctor who heads it, is ridiculous, and needs the light of good common sense. Trustees and other boards, sit on reports and say Ah! altogether, then go away and read Mr. Wright to satisfy their conscience, while Dante's Inferno goes on unproved again, over the helpless, condemned invalids.

The suppressing of patients' letters to outside parties is another outrage Mr. Wright takes no notice of. In Pennsylvania no doctor can do this. He must send all letters to the Board of Lunacy if not to the parties addressed by patients and the board decides upon them and investigates the complaints. Could I have been allowed to send a letter to my uncle in New York from that asylum, months of torture would have been spared me and thousands of dollars saved me of my little dependence in old age. But no! a doctor would promise to send a letter to him, then not send it, leaving me to weeks of suspense at receiving no reply, even telling me he had sent it, when it lay locked in his desk for future production before the board of control.

Locking patients in close cells at night, to stifle, freeze or burn up if the building takes fire is another method of mental "treatment" in practice in Wisconsin, which should not be allowed in any asylum. Pure air is a necessity to recovery, and it would be impossible to unlock so many doors in case of fire at night. Usually at such times the patients have shown more presence of mind and ability to rescue themselves than the attendants. A fact showing that "lunatics" are not appreciated.

Door Should Swing Outward. "An asylum door should swing outward to relieve a patient as readily as inward to receive one," said Dr. Morton in his paper at the World's Fair. He also said to me three months after I left Milwaukee Asylum, pronounced by six or seven Wisconsin doctors, a "hopeless lunatic" with "no future, except in confinement," and so published by Milwaukee papers. Dr. Morton said: "I do not believe a court in Pennsylvania could be found to commit you, and if by any chance you had been sent to an asylum here, you would not have stopped there any longer than the committee of lunacy could have reached you." To this excellent, cultivated, high-minded and honest doctor do I owe what little peace of mind I have known, since by a Milwaukee court I was consigned to live among lunatics and robbed of my property without a shadow of trial or honest legal action, and for four years the fight has been kept up against me because I refused to meekly sit there in a howling bedlam and let a guardian spend my property or consent to consign it to relatives or other interested parties. Not yet has it been restored to me, and not yet do Wisconsin people know the terrible truth about insane asylums; and they never will know until they cease to take the word of ignorant salaried officials or of stupid or vindictive relatives. While the family friends of some insane people are most kind and devoted there are cases where selfish motives make relatives the least to be trusted of all parties concerning a person called insane. The more mystery, calumny and silence is enforced, the surer it is that dishonest and foul play is at work.

Best of Treatment Needed. If a person is really insane, there can be no objection to her having the benefit of treatment of the highest physicians the land possesses, and yet I was denied that for nine months, and only effected it at last by a trial before the Board of Control, with opposing lawyers paid out of my funds by the guardian, with witnesses all summoned against me and the other instruments of torture to a worn spirit, and costing in the neighborhood of one thousand dollars. That is how a court economized with my funds and how it has continued to do until nearly all are spent.

Your law requires a jury trial to commit a person to an asylum and yet I never had such trial—was denied it, denied everything else essential to comfort and happiness in order to give my pocketbook into the hands of other people having no right to it. Since leaving Wisconsin I have been at perfect personal liberty, though your courts still squander my money, keeping me homeless and ill by such wrong; I nursed my poor husband an entire year and laid him to rest in a mountain grave in New Hampshire, still held a "lunatic" by your Wisconsin court and you in Janesville whom he knew and whom I knew in brighter days may be glad to know that in the high peace of his last earthly years, while no murmur escaped him and his face was cheerful, almost radiant with the light of dawn approaching yet, never once did he laugh. Mirth for him was already dead; but often tears swept his cheeks and they were his last conscious tribute on earth, "Jesus wept!" Often I thought of that shortest verse in the New Testament, as I saw him fading out, but Jesus never laughed, and to my mind in those days of solemn watching, so much sadder than even the close of life is wont to be, because of this terrible trial so needlessly brought upon us both, how much richer and grander he was than ever before. Now suffering had perfected a soul that, in its beginning was above us on the lower spiritual levels, and now seemed from its fiery chariot to sweep cycles of love and tenderness towards all humanity. He wrote "From God back to God flows the circuit of love. From lowest down nadir to zenith above." And concluded some twenty such

stanzas with including his pet pussy, as a creature not exempt from the infinite tenderness and life-immortal. Mind, with Mr. Dudley, was sacred, a part of Delty.

THIN PEOPLE.

How the Weight May Be Increased in a Healthful Natural Manner.

All people who are thin are not necessarily so from disease, it is natural for some to be thin, and no amount of treatment would add an iota to their weight, but the great majority of people are thin because their digestion is not perfect, their stomachs do not thoroughly digest flesh-forming foods, they may not have chronic dyspepsia, but their digestion is not vigorous enough to assimilate the food necessary for robust health and to keep up their weight.

For all such the new discovery for dyspepsia and digestion comes as a most welcome addition to the list of meritorious remedies. The new discovery referred to is Stuart's Dyspepsia Tablets, which is not only a pleasant and certain cure for indigestion, but possesses the peculiar power of digesting flesh-forming foods, like meat, eggs and similar ordinary foods, so that the increase in weight is a perfectly natural process. One grain of the digestive principle in Stuart's Dyspepsia Tablets will digest 3,000 grains of flesh-forming food. Dr. Jennison recently stated that he depends altogether upon these tablets for the cure of dyspepsia and stomach troubles and that they not only cure the indigestion, but in every case a gratifying increase in weight was noticed, not fat, but the proper amount of flesh for health and symmetry. Dr. Harlandson speaks highly of the tablets, not only because they build up flesh and cure indigestion, but they are absolutely safe and harmless, no matter what the condition of the stomach and are excellent not only for the ordinary dyspeptic, but for invalids and children.

Stuart's Dyspepsia Tablets are sold by all druggists at 50cts. per package and a trial will convince anyone of their merits.

THE JANESVILLE GAZETTE.

THE OFFICIAL CITY PAPER.

Entered at the postoffice at Janesville, Wis. as second-class matter.

JUGGLED THE FIGURES.

With an agility born of long practice in the art of misleading the public by misstatements and ingeniously jumbled figures, some of the democratic papers of the state, following the lead of Vilas' Milwaukee organ, are endeavoring to make capital out of the undisputed fact that the state tax levy for 1895 is larger than that for 1894. Intelligent people who follow closely the state's business affairs will not be deceived by those misstatements, but as there are many who are not in a position to know all the facts, a little light on the actual condition of affairs may be timely. The statements given below are not juggled for the purpose of misleading the reader, but are cold facts taken from the records in the secretary of state's office, not alone during this administration, but including the report of the democratic predecessor of the present secretary.

The estimates made by the previous administration for the revenues accruing to the general fund for the fiscal year ending September 30, 1895, as published in the biennial report of the secretary of the state for 1893-1894, anticipated that there would be \$10,000 in the general fund and that \$1,601,000 would be received from licenses and other sources, making a total of \$1,611,000. The actual receipts from these sources were \$1,582,498.36, \$28,501.54 less than estimated. This report also estimated that the ordinary and current expenses of the state government to be paid from these revenues would amount to \$1,516,600, \$195,889.86 less than it had cost the previous administration to run the state government in the fiscal year ending in 1894, when there was no legislative session, which cost the past year over \$150,000. No provision was made in the estimate for taking the decennial census, which cost the state \$100,000.

By reference to the biennial report of the secretary of state, pages 29 and 30, it will be seen that the governor, secretary of state and state treasurer on the 20th day of July, 1894, acting under the authority gained them by section 1069a of Sanborn & Berryman's Annotated Statutes, applied the surplus in the general fund as a portion of the state tax levy. The items applied in this way were as follows:

Amount recovered from former state treasurer	\$327,902.55
Direct war tax refund	89,436.10
Interest from bank deposits	46,644.78
Railroad and insurance license and office fees	278,556.57

This certifies that such surplus, without detriment to the public service, could be applied as a portion of the state tax levy. This reduced the amount of tax to be levied to \$240,000. It will be readily seen from this how the difference between the tax levy of 1895 and that of 1894 occurred; comparisons should be made of the tax of last year with that of 1893. The levy for 1893 amounted to \$1,018,720 on an equalized valuation of \$600,000. The legislature of 1895 provided for an additional university tax of 1-5 mill, which adds \$120,694 to the regular university levy. In addition to this amount \$100,000 was provided for the school for the feeble-minded, \$72,000 as a special appropriation for the state normal schools and \$2,500 as a permanent levy for manual training schools, making about \$295,000 additional levy provided by the last democratic legislature.

The transfer of \$42,000 which the governor, secretary of state and state treasurer certify was made on the 20th day of July, 1894, was not made, in fact, until the last day of the outgoing administration, and was, in fact, carried as a balance in the general fund at the end of the fiscal year 1894.

The receipts from railway licenses for the year ending September, 30, 1895, were \$1,175,752.52, as against \$1,438,758.66 for the previous year, a decrease of \$263,000, while the decrease from other license funds was \$73,000, and the revenues of the state were for the last fiscal year, \$1,582,498.36, as against \$2,226,164.24, the previous year, a decrease of \$643,665.88. Instead of there being a balance in the general fund on the incoming of the present administration, as estimated by the report of the secretary of state, of \$10,000, there was a deficiency of \$32,900, the fund being overdrawn that amount. The interest on certificates of indebtedness has been a permanent tax ever since the debt was created during the war. Whenever an effort has been made to pay off this indebtedness, the friends of the common school system of the state have raised opposition on the ground that it was the only really permanent fund that they had which yielded a fair revenue, and that to pay off this indebtedness, which bears interest at 7 per cent, would require them to make their investment at a much lower rate of interest. The contention has been that the university and normal schools have ample revenue, and to deprive the common school of this revenue, would be un-

just and unfair, under the circumstances.

The other items in the tax levy for 1895 are permanent levies directed by the law, with the exception of the feeble-minded school and the special appropriation for the normal schools. None of the taxes levied are for general purposes; on the contrary, all are for educational purposes.

It will be also remembered that about \$150,000 of bills from the previous administration have been paid during the fiscal year just ended.

Do You Consider Yourself A Good Business Man ?

FUNNY question you think ? Well it is, but you are probably a good business man and yet you patronize a tailor, chip in toward paying some other fellow's bill. Now as a matter of fact you can get a good suit or a top coat from us, one of the Stein-Bloch kind that is far better than your tailor can make, and the price is just fifty percent less than the merchant tailors. You know the old axiom, "The wise merchant always investigates."

SKULLS BEATEN IN BY A MAD BROTHER

LITTLE SULLIVAN BOYS IN CRITICAL CONDITION.

They Were Taken Out to the Barn Last Sunday Morning and Struck Down with a Fork Handle in the Hands of an Insane Elder Brother.

Dr. James Gibson is caring for John and Fred Sullivan, who were all but killed by their crazy brother, Michael, on the Sullivan farm south of Sharon. The two little boys seven and nine years old were taken to the barn by their brother who is twenty five years old and were felled by blows from a pitch fork handle. They dropped like logs and Michael, thinking them dead, went to the house. His mother was alone in the kitchen and he attacked her with a butcher knife, inflicting an ugly wound.

Neighbors were near at hand and bound the demented youth before he could do any further harm. He was taken to the Elgin asylum. He had been in Kansas all winter and acted so strangely there that his father brought him home.

The wounded boys are in a critical condition, Dr. Gibson says. Their skulls were fractured and one lay unconscious for twenty eight hours.

The number of pairs of boots and shoes that left Brown Bros. & Lincoln's store for the last week were the largest that ever went out of any store in the city at any one week.

PEOPLE generally do not understand how cheaply they can buy America bicycles here for. If Chicago dealers were consulted, \$100 and no less would be asked, while here \$55 is the price. F. A. Taylor.

THE W. R. C. will give an anniversary social and dance, with light refreshments, in Post hall, Monday evening, April 13. The public is cordially invited to attend. By order Executive Committee.

In those small sizes of ladies shoes we spoke of yesterday from 2 to 3 1/2 we sell many of them for less than \$2.00. You can get a fine shoe for \$1.00 the same as you would usually pay \$2.50 and \$3.00 for. Becker & Woodruff.

WHEN you can buy Lawnsdale and Fruit of the Loom muslin at 6 1/2 cents, Lawnsdale cambric at 8 1/2 cents, Popperell R at 5 1/2 and Nashua R at 5 1/2 cents, it is a good time and the right time to lay in a stock. Bort, Bailey & Co.

THE reigning fashion calls for something dressy in hat gear. Its happy to have a store where the new and correct style can be had. The Miller is the best then the Stetson and Gayer. Both as good as any one need wear. We show this week several new styles. T. J. Ziegler.

EVERY day finds many more shoes gone from our shelves and yet we are able to give people a satisfactory fit. The stock is so large and the variety so great that it is not a hard matter at all to find a shoe that suits, price and all. When you buy strictly high grade up to date shoes from \$3 down the investment is safe. Becker & Woodruff.

THE busiest corner in town—you know where it is. You have been there. You buy lots of things there and you are always welcome. Yes, indeed, but you never found the clerks too busy to be pleasant, but you never found the goods to be other than represented. No, indeed! Come in and rest when you are down town. Lowell Hardware Co.

Read the following testimonial furnished to Ziegler by Shauer Brothers' Thistle Cycling Club, Chicago, April 4, 1895:

MESSRS. SHAUER BROS.—GENTLEMEN: I have been wearing a pair of your self supporting bicycle pants for the past two months, and find them satisfactory in every respect. I take pleasure in recommending them as the easiest and most comfortable pair of bicycle rider can wear. Yours respectfully, F. K. Reed, Capt. T. C. C.

YOUNG SOLDIERS DRILL WELL.

Christ Church Cadets Make a Very Creditable Showing at the Armory.

Cadets made a most creditable showing in their exhibition drill last night. Fully a hundred friends of the young soldiers watched their drill, and the inspection by Captain F. A. Nelthorpe, Captain Hanson and Lieutenants Rooney and Kerry of the Presbyterian Boys' Brigade.

Percy Wallace received from Captain Piny Norcross' hands the Engebreton gold medal and a drill followed. In the drill the effects of hard and persistent work by officers and men was apparent.

Marching, wheeling and firing were alike admirable, as was the gymnastic exhibition that came later. The evening's entertainment closed with a dance in which sixty couples took part.

MRS. COOK IS BEING CARED FOR

Associated Charities and The County Supply All Her Needs.

Mrs. Cook and three children, who have been sick with measles are being cared for by Poormaster Kenyon and the Associated Charities. All the funeral expenses were paid by the county, and a nurse was furnished. Yule Fires.

Do not the "kitchen middens" of which geologists tell us—those singular remains of gigantic fires and roasted bones which science has discovered on many a northern shore—mark the site where the Yule logs of the king's fires were first kindled? Quantities of fossilized bones are embedded in the old world ash heaps—bones which careful investigation assures us have been roasted. Huge cooking places they must once have been. The bones strewn the ground after a carouse seem to have been a special feature of a Danish feast. We have only to recall the death of Elphage, the patriot archbishop of Canterbury, in the days of Ethelred, who, although a prisoner in the Danish camp, steadily refused to deliver himself by ransom, saying it would be treason in him to pay the enemies of England. "Gold, bishop, gold!" shouted the Danish troops, thirsting more for gain than blood, until, irritated by his constancy, they ran to a heap of bones and horns of oxen—the relics of their repasts—and showered them from all sides upon the aged Saxon. Elphage soon fell half dead, and was dispatched with an ax by one of the pirates.

We may gather some idea of these gigantic Yule fires from the ancient edicts and the allusions in the sagas to the all important duty of kindling the beacon fires at the approach of an enemy. Whenever the Norsemen settled these beacon fires were established and their wardens appointed. Olaus Magnus and Snorro both prove that large trees were cut down in the nearest forest and piled upon the beacon hill until the blazing pine wood must have resembled a burning mountain. Yet the king's fire at the feast of Thor exceeded the beacons on the Norway headlands, as it burned for weeks, for the feast of Thor was also the appointed time for regulating all home affairs.—Notes and Queries.

One or the Other.

"It's hard to give satisfaction," said the new congressman wearily.

"It's very difficult to tell what people are going to say about you," assented his wife.

"Yes. But it's pretty sure to be one of two things—they'll either say you're extremely ordinary or else that you're a freak."—Washington Star.

TEN DOLLAR BILL FOR THE BEST AD

GAZETTE'S APRIL OFFER TO
ITS FRIENDS.

The Person Who Comes Nearest to
Picking Out the Best Ad From The
Gazette Each Day in April Will
Be Presented With a Crisp Green-
back.

A ten dollar bill—crisp and fresh—
hangs in a frame, in the Gazette office.
What is it for?

Just this.
In every issue of The Gazette there
appear a good many pretty good ads
and a good many pretty poor ones.

The good ones bring profit to the
advertiser and cause his face to be
wreathed with smiles.

The poor ads cost just as much, but
produce less result, and induce a loss
of faith in the value of advertising.

This is all wrong!
We want more GOOD advertise-
ments.

The way to make a good advertise-
ment is to try to make a good one—
try hard.

To encourage good advertising The
Gazette inaugurates this friendly con-
test.

The \$10 bill goes to the reader who
selects the best display ads that ap-
pear in The Gazette during April—one
each day.

These are the conditions:

One display ad. is to be clipped from each
issue of the Daily Gazette for April and marked
with the name and the date of issue.

The bunch of advertisements—one from each
issue in April—are to be mailed to the Gazette
before 6 p. m. Saturday, May 2.

Voters may prepare more than one list if they
chose.

The best ad. for each day will be determined
by counting the ballots sent in at the end of the
month. No ad. is to appear twice in one list.

The contest is confined to display ads—not
reading notices or locals. Janesville ads only.

Size, the typographical beauty and verbal
cleverness are not the essential qualities. The
"best ad." under the terms of this contest, is
the one that seems likely to draw the most busi-
ness. No matter if the wording be clumsy and
and the typography poor, the ad. that brings re-
sults, is the best ad. of the world over.

The ad. that makes a hundred people say
"That's a fine ad." is good, but the ad. that makes
a dozen people buy, is better.

Read these conditions carefully, sub-
scribers and non-subscribers, and get
your scissors ready.

THE LOCOMOTIVE WHISTLE.

The Story of Its Development from a
Little Tin Horn.

When locomotives were first built
and began to trundle their small loads
up and down the newly and rudely con-
structed railways of England the pub-
lic roads were for the greatest part
crossed at grade and the engine driver
had no way of giving warning of his
approach except by blowing a tin
horn. But this, as may be imagined,
says a writer in Cassier's Magazine, was
far from being sufficient warning.

One day, in the year 1833, so runs a
story of the origin of the locomotive
whistle, a farmer of Thornton was
crossing the railway track on one of
the country roads with a great load
of eggs and butter. Just as he came
out upon the track a train approached.
The engine man blew his tin horn lus-
tily but the farmer did not hear it.
Eighty dozen of eggs and fifty pounds
of butter were smashed into an indis-
tinguishable, unpleasant mass and
mingled with the kindling wood to which
the wagon was reduced.

The railway company had to pay the
farmer the value of his fifty pounds of
butter, his 960 eggs, his horse and his
wagon. It was regarded as a very seri-
ous matter, and a director of the com-
pany went to Atton Grange, where Geo.
Stephenson lived, to see if he could not
invent something that would give a
warning more likely to be heard.

Stephenson went to work and the next
day had a contrivance which, when at-
tached to an engine boiler and the
steam turned on, gave out a shrill, dis-
cordant sound. The railway directors,
greatly delighted, ordered similar con-
trivances to be attached to all the lo-
comotives, and from that day to this
the voice of the locomotive whistle has
never been silent.

A WORD to the wise is sufficient.
Smoke "Lyonettes." They are the
best.

A MARKET IN ENGLAND.

Alberta Cattle Quickly Sold—Railroad in
the Far North.

James Reilly, of Calgary, Alberta, is
making a tour of the sound cities for
the first time and is staying at the
Northern while in the city, says the
Seattle Post-Intelligencer. Mr. Reilly
has been twice mayor of Calgary and
is engaged there as a cattle raiser. He
says they have splendid pastures and a
ready market in England for all the
cattle they raise. The average price
on the ranch to-day for 4-year-olds is
\$40. They all go to England.

"You do not send any to the United
States?"

"No, because there is both a duty and
a quarantine against us. We would
like to have closer relations with the
United States, and especially better and
closed railroad communication. We
are on the eastern slope of the Rocky
mountains, just north of Montana, and
a railroad directly to the south of us
would be of advantage to both coun-
tries."

"You will have one north of you
soon, Mr. Reilly."

"Yes, I believe the Great Northern
enterprise will go through. It will
parallel the Canadian Pacific from
200 to 300 miles to the north. A
branch will come to Calgary. A char-
ter is now being sought for from our
city to run a line to Hudson's bay by
English capitalists, and we are dis-
posed to look upon that proposed line
as the great cold-storage route of the
northwest, to carry our fruits, butter
and perishable products to the mar-
kets of Great Britain. No, we do not
expect to use the line all the year round
but for five months in the year we be-
lieve the scheme is a good one."

"Last year our shipments to Great
Britain amounted to \$1,000,000, and
with better transportation facilities the
country would grow up and the export-
ation be enormous. It is the finest
dairy and stock raising country I have
ever seen."

J. W. Pierce, Republic, Ia., says:
"I have used one minute Cough Cure
in my family and for myself, with re-
sults so entirely satisfactory that I
can hardly find words to express my-
self as to its merit. I will never fail
to recommend it to others, on every
occasion that presents itself. C. D.

True patriotism will lead men to
purify their own lives. Every criminal,
every debaucher, is a bluish upon my
country. Every pure man, every schol-
ar, every true man adds to her great-
ness. The country called for soldiers
once. True patriots responded. To-
day she calls for pure, earnest, honest
men. Truest patriots will again re-
spond to her call.—Johnston Myers.

TEN DOLLAR BILL FOR THE BEST AD

GAZETTE'S APRIL OFFER TO
ITS FRIENDS.

The Person Who Comes Nearest to
Picking Out the Best Ad From The
Gazette Each Day in April Will
Be Presented With a Crisp Green-
back.

A ten dollar bill—crisp and fresh—
hangs in a frame, in the Gazette office.
What is it for?

Just this.
In every issue of The Gazette there
appear a good many pretty good ads
and a good many pretty poor ones.

The good ones bring profit to the
advertiser and cause his face to be
wreathed with smiles.

The poor ads cost just as much, but
produce less result, and induce a loss
of faith in the value of advertising.

This is all wrong!
We want more GOOD advertise-
ments.

The way to make a good advertise-
ment is to try to make a good one—
try hard.

To encourage good advertising The
Gazette inaugurates this friendly con-
test.

The \$10 bill goes to the reader who
selects the best display ads that ap-
pear in The Gazette during April—one
each day.

These are the conditions:

One display ad. is to be clipped from each
issue of the Daily Gazette for April and marked
with voter's name and the date of issue.

The bunch of advertisements—one from each
issue in April—are to be mailed to the Gazette
before 6 p. m. Saturday, May 2.

Voters may prepare more than one list if they
choose.

The best ad. for each day will be determined
by counting the ballots sent in at the end of the
month. No ad. is to appear twice in one list.

The contest is confined to display ads—not
reading notices or locals. Janesville ads only.
size, the typographical beauty and verbal
cleanness are not the essential qualities. The
"best ad" under the terms of this contract, is
the one that seems likely to draw the most busi-
ness. No matter if the wording be clumsy and
the typography poor, the ad. that brings re-
sults, is the best ad. of the world over.

The ad. that makes a hundred people say
"That's a fine ad" is good, but the ad. that makes
a dozen people buy, is better.

Read these conditions carefully, sub-
scribers and non-subscribers, and get
your scissors ready.

THE LOCOMOTIVE WHISTLE.

The Story of Its Development from a
Little Tin Horn.

When locomotives were first built
and began to trundle their small loads
up and down the newly and rudely con-
structed railways of England the pub-
lic roads were for the greatest part
crossed at grade and the engine driver
had no way of giving warning of his
approach except by blowing a tin
horn. But this, as may be imagined,
says a writer in Cassier's Magazine, was
far from being sufficient warning.

One day, in the year 1833, so runs a
story of the origin of the locomotive
whistle, a farmer of Thornton was
crossing the railway track on one of
the country roads with a great load
of eggs and butter. Just as he came
out upon the track a train approached.
The engine man blew his tin horn lus-
tily but the farmer did not hear it.
Eighty dozen of eggs and fifty pounds
of butter were smashed into an indis-
tinguishable, unpleasant mass and in-
gled with the kindling wood to which
the wagon was reduced.

The railway company had to pay the
farmer the value of his fifty pounds of
butter, his 960 eggs, his horse and his
wagon. It was regarded as a very seri-
ous matter, and a director of the com-
pany went to Atton Grange, where Geo.
Stephenson lived, to see if he could not
invent something that would give a
warning more likely to be heard.
Stephenson went to work and the next
day had a contrivance which, when at-
tached to an engine boiler and the
steam turned on, gave out a shrill, dis-
cordant sound. The railway directors,
greatly delighted, ordered similar con-
trivances to be attached to all the lo-
comotives, and from that day to this
the voice of the locomotive whistle has
never been silent.

A word to the wise is sufficient.
Smoke "Lyonettes." They are the
best.

A MARKET IN ENGLAND.

Alberta Cattle Quickly Sold—Railroad in
the Far North.

James Reilly, of Calgary, Alberta, is
making a tour of the sound cities for
the first time and is staying at the
Northern while in the city, says the
Seattle Post-Intelligencer. Mr. Reilly
has been twice mayor of Calgary and
is engaged there as a cattle raiser. He
says they have splendid pastures and a
ready market in England for all the
cattle they raise. The average price
on the ranch to-day for 4-year-olds is
\$40. They all go to England.

"You do not send any to the United
States?"

"No, because there is both a duty and
a quarantine against us. We would
like to have closer relations with the
United States, and especially better and
closed railroad communication. We
are on the eastern slope of the Rocky
mountains, just north of Montana, and
a railroad directly to the south of us
would be of advantage to both coun-
tries."

"You will have one north of you
soon, Mr. Reilly."

"Yes, I believe the Great Northern
enterprise will go through. It will
parallel the Canadian Pacific from
200 to 300 miles to the north. A
branch will come to Calgary. A char-
ter is now being sought for from our
city to run a line to Hudson's bay by
English capitalists, and we are dis-
posed to look upon that proposed line
as the great cold-storage route of the
northwest, to carry our fruits, butter
and perishable products to the mar-
kets of Great Britain. No, we do not
expect to use the line all the year round
but for five months in the year we be-
lieve the scheme is a good one.

"Last year our shipments to Great
Britain amounted to \$1,000,000, and
with better transportation facilities the
country would grow up and the export-
ation be enormous. It is the finest
dairy and stock raising country I have
ever seen."

J. W. Pierce, Republic, Ia., says:
"I have used one minute Cough Cure
in my family and for myself, with re-
sults so entirely satisfactory that I
can hardly find words to express my-
self as to its merit. I will never fail
to recommend it to others, on every
occasion that presents itself. C. D.
Stevens

Why is one woman
attractive and an-
other not? The
most admirable and
attractive thing
about an attractive
woman is her wom-
anliness. Every-
body admires a
womanly woman.
She must have
health, of course,
because without it
she would lose the
brightness of her
eyes, the fullness of
her cheeks and her
vivacity. Real
health must mean
that a woman is really a woman. That she
is strong and perfect in a sexual way, as
well as in every other. That she is capable
of performing perfectly the duties of ma-
ternity. Some are born with what is called
"constitutional weakness." Those who do
not enjoy perfect health, need only take
the proper precautions and the proper rem-
edy to become perfectly well and strong.
Dr. Pierce's Favorite Prescription will cure
any derangement of the distinctly femi-
nine organism. Sold by druggists.

in town. The garments represent three
sample lines made by three of New York
City's foremost makers and we own them at
figures so low that we will sell them at prices
below all competition. Bear in mind
there is not a plug in the lot; they are the
swellest of swell garments, and as right as
right can be, and the chance to buy such
goods at the prices we make so early in the
season, is something which rarely occurs.

\$1.00, \$3.00, \$5.00

Buys from a miscellaneous collection of Capes and Jackets,
the styles being not quite as late as the line first mentioned,
but among which will be found some very desirable wraps
representing a cost of three and four times the price asked.
